Gentlemen:

Asnper our telephone conversation, I am sending two pages of photographs, of which I desire half-tones. They are to be 150-screen, same size, background cut out leaving the coins in silhouette. We wish these sawed apart in horizontal strips so that we can place numbers under each coin.

As I stated over the telephone, we do not want the work done if you charge up each block as a minimum.

Please deliver these to us at the above address at the end of this week. You were recommended to us by Mr. A. A. Hopkins of the Scientific America.

Very truly yours,

Curator

Gentlemen:

Your bill for the two half-tone plates amounting to $15.00 at hand. It seems to us that this charge is too high. A few months ago, we had almost identical work done for a good deal less money. Although your work is very satisfactory, we feel that we can ask you to handle no more forcus unless you can see your way clear to establish cheaper rates.

Very truly yours,

Curator

Gentlemen:

I am sending you, herewith, two photographs of coins, of which I desire to have cuts made, 150 screen, same size, silhouette. These are to be blocked singly or into strips, as indicated on the back of the photograph - 13 blocks in all.

As agreed with you heretofore, these are not to be charged as thirteen minimums, but to make it a charge for blocking.

Very truly yours,

Curator
